I'm Luna and I'm a Graphic Designer. I graduated from IAAD University of Torino (Italy) more specifically in "Communication and Design".

I just finished a short master's degree in **Events and Strategic Management in London** that helped me develop skills in organization and marketing strategies.

During my studies I developed good communication and interpersonal skills and also i have great interesting in **Event, Communication Media, Photography and Fashion.**

I love people and differences and i'm in love with the Arab culture.

"Diversity will save the world"

INDIA 2019:

I was in India for a few months as a volunteer at a children's school in Jarkhand.

I lived surrounded by nature, in silence and with the awareness of being in a difficult context. But I learned a lot, I thought about leaving and teaching but I realized that it was the Indian children who taught me how beautiful life really is even when you don't have a lot. It was an experience that changed my life, enriched me culturally and humanly above all.

Simplicity, empathy and lots of love.
